Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

The LIHEAP Administrator uses the Tribe's accounting system and also TAS to monitor funding. TAS is also used to ensure accurate reporting by pulling data from TAS to compare to microfund. Accurate records are also kept by the administrator as to when the back up documents are sent to the Tribe's fiscal department for payment processing. In the upcoming fiscal year, the program will be administered more smoothly as we attend more trainings, conferences, webinars, etc. and take into consideration the opinions and needs of our people, and learn more about administering the program. We are confident that we have been improving the lives of our Karuk Tribal Members by letting them know of funding availability and paying great attention to detail. The Karuk Tribe would like to assist in making it easier for our membership to survive and flourish in their ancestral territory and more towards self-sufficiency.

The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
