#### 4.2 Provide your LIHEAP program's definition for determining a crisis.

To receive a Crisis benefit, a household must:

- Request assistance with an energy emergency by either:
- Submitting a bill, disconnect notice or disconnection document verifying the energy emergency.

#### OR

- Notifying the Service Provider of an energy emergency.
- Be EAP eligible.
- Have received a Primary Heat benefit that did not resolve the emergency.
- Have the emergency situation verified and documented by the Service Provider with the energy vendor at the time the Crisis benefit is determined.
- Be occupying the dwelling at the time Crisis is requested and the benefit is determined.
- Not have a redundant heating system that has fuel. An exception is that households with a redundant heating system are eligible for Crisis if the heating system that is out of fuel is needed to allow continuous heat to the dwelling (e.g. if the electric portion of the redundant heating system is on an off-peak discount program that interrupts electric heat to the dwelling.)
- Not have a Crisis payment that results in a credit on an account.
- Have one of the following Crisis reasons:
- Heat Related Shut Off.
- · Heat Related Disconnection Notice.
- Less than 20% in Fuel Tank and Refusal to Deliver (RTD).
- · Less than One Week Biofuel.
- Non-Heat Electric Shut Off.
- Non-Heat Electric Disconnection Notice.
- Senior Past Due or Current Energy Bill.

Minnesota administers LIHEAP and DOE Weatherization (WAP) in the Department of Commerce, Division of Energy Resources. This helps facilitate coordination between similar and related services. The *Minnesota Energy Assistance Programs Application* serves as the application for LIHEAP and weatherization activities funded by LIHEAP or DOE. LIHEAP Service Provider staff determine income for most recipients of weatherization programs.

The energy programs application instructions provide information for the Cold Weather Rule administered by the Public Utilities Commission (PUC). Coordination on the state level includes negotiations between state departments and with vendors.

The EAP application consent section and accompanying Privacy Notice permits organizations with access to EAP data for EAP administration to use the data to identify eligible participants for low-income affordability and conservation programs. Energy vendors include Xcel Energy and CenterPoint Energy provide affordability programs for EAP-recipient households, and state-mandated low-income utility conservation improvement programs (CIP).

Local administering agencies (Service Providers) develop plans for local coordination with other human services providers and community organizations

Service Providers may also administer similar and related programs including the Community Services Block Grant, Head Start, income assistance programs and housing programs.

State law requires the local Service Providers to provide voter registration information to households, as needed.

# Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7 9.1 Do you make payments directly to home energy suppliers? **⊙** Yes **○** No Heating O Yes O No Cooling Tes O No Crisis Are there exceptions? • Yes O No If yes, Describe. Direct Payments Households may receive direct payments under limited circumstances. eHEAT first subtracts from the payment any electric costs. Those payments are distributed to the electric vendor. The remaining amount is then distributed in one direct payment to the household as a check Make direct payments to: Households with biofuel if a biofuel vendor or usable biofuel (e.g. seasoned wood) is not available. Biofuel payments must go to a biofuel vendor whenever possible. Service Providers must maintain knowledge of the biofuel vendors in their service area. The Service Provider must document there is no biofuel vendor or usable biofuel available in the eHEAT 'Crisis' or 'Completion' screen notes. · Households with all energy utilities, electric and heat included in the rent. Households with heat included in rent, and only the amount that exceeds their electric costs for the previous year. Households whose energy vendors refused to sign the energy vendor agreement. Households unable to secure an energy vendor. Note: Reimbursements to applicants for payments made to energy vendors are not allowed. 9.2 How do you notify the client of the amount of assistance paid? Households receive a letter stating the amount paid to energy vendor(s) or, in some instances, the amount paid directly to the household. 9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment? Vendors must sign and comply with a vendor agreement to be eligible to receive payments for heating assistance or crisis assistance on household's energy accounts. Vendor payments are made through a centralized payment system. Local administering agencies work closely with vendors throughout the program year and perform ongoing formal monitoring of a percentage of the vendors annually to assure that all requirements of this assurance are met. Commerce program performance auditors review the vendor monitoring activity performed by the local service provider. 9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance? Vendors must sign and comply with a vendor agreement to be eligible to receive payments for heating assistance or crisis assistance on household's energy accounts. ### Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year?  $\,0\,$ 

12.2 How many of those fair hearings resulted in the initial decision being reversed?  $\,0\,$ 

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

N/A

#### 12.4 Describe your fair hearing procedures for households whose applications are denied.

Households have 30 days from the date they receive their notification letter to appeal decisions made regarding their energy assistance application. Applicants are informed of this right when they receive their application and again on their notification letter. Grounds for appeal are:

- Disagreement about questions of fact (such as income, household size, previous year's heating costs, etc.) used to determine eligibility and amount of assistance.
- · Application was denied.
- Application was not acted on in 30 days.
- The Energy Related Repair services at the time of completion or final inspection were not adequate or were inappropriate.

The three levels of appeal are:

- · Local, including investigation and a written response.
- State, including investigation and a written response.
- Hearing with an administrative law judge followed by a written recommendation to the Commissioner of the Department of Commerce.

#### 12.5 When and how are applicants informed of these rights?

The household received a "Rights and Responsibilities" form with their application. The application states the household may appeal. They are also notified in their EAP award or denial letters.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Households may contact their local agency to inquire about their application.

Households have the right to appeal and may request a fair hearing as stated in item 12.4 above.

#### 12.7 When and how are applicants informed of these rights?

The household received a "Rights and Responsibilities" form with their application. The applicant's right to appeal is stated on the application. Denial letters also inform applicants of their right to appeal.

#### Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Minnesota uses LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance. The supported activities are referred to as Assurance 16 (A16). Assurance 16 allowable activities may include:

#### Budget counseling

- · Energy conservation education
- Facilitation of household negotiations for budget payments
- · Advocacy with fuel suppliers on behalf of households
- · Household energy assessments
- · Referrals
- · Case management
- · Public relations and outreach

Please refer to the attachment for Section 6 - Outreach for Assurance 16 eligible activities and measures.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Funds for Assurance 16 activities are assigned a dedicated project code in the State Accounting System and a dedicated line item on the contract with local administering agencies. The use of Assurance 16 funds is monitored by EAP Program Performance Auditors and activities are recorded in LIHEAP software. This process assures expenditures for these activities do not exceed the allowable 5% of the LIHEAP federal allocation.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

Energy Self-Sufficiency includes activities that help reduce household energy need and enable energy security by affecting one or more of the following areas:

- Enabling and encouraging a household's optimal, or most desirable, energy usage (e.g., more efficient, reduced usage).
- Increasing the affordability of energy.
- Enabling household access to services and opportunities that increase or improve income and/or assets.
- Encouraging increased household housing/energy provider options.
- Seek to help households substantially improve their energy security in the long-term.

Minnesota is able to meet all reporting requirements when the FFY2018 LIHEAP data is requested, as follows:

#### Revised Measures

OCS is now proposing to collect annual data that will establish four performance indicators of the impact of LIHEAP services on its recipients. The data collected will be synthesized to create the following performance measures:

- Benefit Targeting Index for High Burden Households measures the extent to which the highest benefits are provided to the LIHEAP recipient households with the highest energy burden[1] (the percent of gross income spent on utility costs);
- Energy Burden Reduction Index for High Burden Households measures the extent to which LIHEAP benefits are adequate to deliver the same energy burden reduction to high burden recipient households as to low and moderate burden recipient households;
- Prevention of Loss of Home Energy Services the unduplicated count of households where LIHEAP prevented the loss of home energy services;
   and
- · Restoration of Home Energy Services the unduplicated count of households where LIHEAP restored home energy services to the client.

Specific data elements OCS is seeking to collect for each of the four performance measures are detailed below.

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

- 1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
- 2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
- 3. For grantees other than individuals, Alternate I applies.
- 4. For grantees who are individuals, Alternate II applies.

If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
- 7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously

identified the workplaces in question (see paragraph five).
