Provide further explanation for the dates of operation, if necessary

Nebraska currently provides a year round crisis program. Nebraska contracts with the Nebraska Energy Office (NEO) administer the weatherization program, this is a separate contract.

The availability of the cooling program and the variables used to determine eligible households will depend on the funding received for the current fiscal year LIHEAP funds.

For heating and cooling eligible households, an extra payment may be made in the form of a supplemental payment or an increase in the regular season's payment during the current energy year. These payments may be made to either a provider or to the household. Supplemental payments will be an option for circumstances which include excess/additional funding, high energy, or extreme weather.

A copy of Nebraska's current regulations are attached.

6.1 Select all outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:
Place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.
Publish articles in local newspapers or broadcast media announcements.
Include inserts in energy vendor billings to inform individuals of the availability of all types of LIHEAP assistance.
Mass mailing(s) to prior-year LIHEAP recipients.
Inform low income applicants of the availability of all types of LIHEAP assistance at application intake for other low-income programs.
Execute interagency agreements with other low-income program offices to perform outreach to target groups.
Other (specify):
Nebraska has Community Support Specialists that work with community organizations along with Community Action Agencies to update and inform the agencies and the clients of available programs. The agencies also inform clients of the program. The Community Support Specialists also attend different functions in the communities and set up booths for people to make applications and inform the public.
Nebraska has a list of community partners across the state that participate in the fan program to distribute fans in the cooling season.
Energy Providers also reach out to Nebraska residents with energy assistance needs.
ACCESSNebraska has a website to inform clients of the program and applications can be submitted via this website as well. It also helps that DHHS uses one application for all Economic Assistance Programs, so when a client is applying for one program they can see all programs available to them on that application.
Nebraska also works with NEAN (Nebraska Energy Assistance Network), a local energy provider network for all providers, to inform the providers of any changes with the program and also keep current on energy eligibility and program progress.

9.1 Do you make payments directly to home energy suppliers?
Heating Yes O No
Cooling • Yes C No
Crisis • Yes O No
Are there exceptions? • Yes O No
If yes, Describe.
Nebraska only makes payments directly to providers, with the exception where the provider is not cooperating with DHHS in accepting payments or an individual's utilities are included in their rent but the household meets the definition of economic vulnerability. NOTE: on occasion a crisis payment may be sent to the household when the provider does not have or want a provider agreement with DHHS.
9.2 How do you notify the client of the amount of assistance paid?
A notice is generaged by the eligibility system and sent to the household (see attached client notice of action for approval-denial) within one day of benefit determination. The household can also view their notice electronically by creating a 'My Account' on the State AccessNebraska website. In addition, the provider that is receiving the payment is emailed an explanation of benefit amount. This ensures payments are made to the correct account for that client.
9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?
Provider agreements are signed with all providers that receive direct payments from DHHS that requires the provider to apply the amount appropriately.
See attached provider agreement.
9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?
A provider agreement is executed (copy attached) to assure that the LIHEAP households are treated in the exact same manner as private pay customers, as well as assuring that the utility supplier will comply with State Statute in regard to provisions and termination of utility services.
9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households? • Yes No
If so, describe the measures unregulated vendors may take.
Unregulated vendors sign the same vendor agreement stated above.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

LIHEAP expenditures are accounted for in the State of Nebraska's EnterpriseOne (E1) accounting system. Eligibility and authorization services are now entered and tracked through the NFOCUS system. NFOCUS interfaces with E1 to issue payments.

In addition, LIHEAP administration has monthly meetings with the department's financial services section and also NEO to discuss and track grant spending.

El tracks the funds being spent within the program year and can't be overspent. We track expenditures and obligations for weatherization as well as through the El system. We do have a tracking system for refunds, this is done through OnBase using subsidiary codes. Subsidiary codes are also used for crisis/deposit/repair/replacement. This is also tracked in NFOCUS.

In FY 2017, LIHEAP hired a Program Intergrity Monitor in order to review a sample LIHEAP Payments daily in order to ensure LIHEAP funds are spent according to State and Federal Regulations.

Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year? 14

12.2 How many of those fair hearings resulted in the initial decision being reversed? 3

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

There were a total of 14 appeals filed as of 7/14/2017. Of those filed, there were 10 that affirmed the decision of DHHS. Three of them were reversed the decision of DHHS. One was dismissed by the hearing office.

This number may be updated after the Energy Season 9/30/2017 if more appeals are received.

12.4 Describe your fair hearing procedures for households whose applications are denied.

Household must request an appeal, a hearing is then held unless the situation can be alleviated prior to the hearing.

Clients who are not satisfied with the determination on their application may request an informal conference with the customer service center or local office administrator or a designated representative before requesting a fair hearing. If this is done, the administrator or designated representative shall give a written decision within 10 days of the request and send copies of the decision to the claimant and the Central Office.

12.5 When and how are applicants informed of these rights?

Applicants are informed of their rights both in the information packet and on any application form used to determine LIHEAP benefits. (see attached application)

The Notice of Action that is sent to the client also contains the clients right to appeal the decision (see attached client notice of action for approval-denial).

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

The client can follow the same procedure as identified in denials. If the application is not acted on in a timely manner it could be cause for additional crisis benefits being needed to be issued to remedy the households situation. Supervisors and PAS (Program Accuracy Specialists) also track the timeliness of cases being activated in case reviews.

12.7 When and how are applicants informed of these rights?

They are informed in the regulations, on the application, and the Notice of Action (see attached client notice of action for approval-denial). In the case of a telephone application, the rights and responsibilies are addressed at the time of the telephone application.

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and
thereby the need for energy assistance?

Nebraska does not do Assurance 16, but the following are activities that Nebraska does participate in to encourage and enable households to reduce their energy needs.

Nebraska is also a member of the Nebraska Energy Assistance Network (NEAN). In the past, NEAN has conducted energy forums across the state on how to lower the needs of a household to reduce the energy costs. Nebraskaenergyassistance.com is the website for NEAN and carries information on many ways to save or reduce energy costs. Included are videos on Get a Head Start on Energy. NEAN also works with the Head Start program to do both videos and individual sessions with households.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

The only expense that Nebraska incurs for the above activities, is a membership due with NEAN. This would come out of Nebraska's administrative funds.

- (D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;
- (8) provide assurances that,
- (A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and
- (B) the State will treat owners and renters equitably under the program assisted under this title;

- (10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursal of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");
- (11) permit and cooperate with Federal investigations undertaken in accordance with section 2608;
- (12) provide for timely and meaningful public participation in the development of the plan described in subsection (c);
- (13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance under the plan described in subsection (c) are denied or are not acted upon with reasonable promptness; and

- * This assurance is applicable only to States, and to territories whose annual regular LIHEAP allotments exceed \$200,000. Neither territories with annual allotments of \$200,000 or less nor Indian tribes/tribal organizations are subject to Assurance 15.
- (16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with
