${\bf 4.2\ Provide\ your\ LIHEAP\ program's\ definition\ for\ determining\ a\ crisis.}$

Household must have existing/imminent lack of adequate heat/cooling in dwelling (emergency), or a risk of a heating emergency (proactive). While there is not a formal asset test, consideration may be given to resources available to the household before assistance is provided. No household will be eligible for crisis cooling assistance without a declaration by a local or state public health agency of a heat emergency and authorization is given by the Department of Administration.

A household may receive more than one crisis assistance payment.

Determination of eligibility for regular heating assistance benefits will determine a household eligible for crisis assistance for the remainder of the program period if the household has contributed \$25 or more towards their heating costs in the three months prior to application for crisis assistance.

4.3 What constitutes a life-threatening crisis?

Household must have existing/imminent lack of adequate heating in dwelling. Determination of a threat to health or safety of an eligible household is based on four factors: expected low temperature, condition of the dwelling unit (habitable, operable furnace, etc.), presence of vulnerable persons (persons with medical need for heat -- elderly, handicapped, children under six, etc.), and alternatives available to the household (place for temporary relocation, etc.). Medical need for heat and/or cooling may be considered in determining the presence of an emergency for vulnerable persons, including households with young children, handicapped and/or elderly persons. The presence of vulnerable persons may affect the amount and type of benefit provided to the household.

Allocate funds specifically for the purpose of outreach to households with elderly, disabled, rural poor, and/or young children residing in them.

An early application period will be utilized prior to the heating season. This process includes accepting applications during the summer for the following Federal Fiscal Year from targeted households.

Accept applications for energy assistance at sites geographically accessible to all households in the area to be served. This includes setting up LIHEAP application sites for targeted households (contacting targeted persons or their representatives to ascertain convenient times and places, contacting community leaders to locate and serve application sites, providing information on alternate sites to organizations/programs likely to reach targeted persons, contacting targeted persons to arrange application appointments, transportation, etc.).

Provide information directly or by selective mailing to targeted applicants, e.g., assistance to understand the application form, translation of material, interpretation services for deaf, reading for blind.

Assist targeted applicants to gather needed documentation e.g., sorting documents, explaining what is needed.

Facilitate access to state weatherization programs targeted to LIHEAP eligible households and other energy-related services e.g., utility early identification and emergency intervention.

Generate and use computerized application information for some households that received heating assistance last year. This activity will not be occurring in FFY 2015 as a result of implementing a new intake system.

Counties and tribal agencies are required to provide outreach services to maximize participation of eligible persons in the Low Income Home Energy Assistance Program. It is the responsibility of each county/tribe to provide application sites accessible to the eligible population in the county/tribe, with particular attention to overcoming barriers for targeted households. Outreach client benefits include: taking applications, certifying application information, and processing applications at an alternate site.

	Section 7: Coordination, 2605(b)(4) - Assurance 4

~	Joint application for multiple programs
~	Intake referrals to/from other programs
,	One - stop intake centers
	Other - Describe:

Wisconsin administers LIHEAP, DOE, and Public Benefit weatherization programs through the same state office, the Department of Administration, Division of Energy Services. LIHEAP is coordinated at the state level with income maintenance programs through agreements and data collection/sharing with the Department of Children and Families (DCF) and Department of Health Services (DHS). DCF operates the Temporary Assistance to Needy Families (TANF), W-2, including the jobs and welfare to work program as well as other assistance programs. DHS operates FoodShare (SNAP).

Beginning in FY2001, State of Wisconsin Public Benefits funds were used to make payments to eligible recipients. Public Benefit funds are fully integrated into the Wisconsin Home Energy Assistance Program, WHEAP.

Coordination between the state and local level is achieved by including representation from a variety of private and government agencies interested in energy services and/or services for low-income persons on the Low Income Energy Advisory Committee (LIEAC).

Local service providers are expected to coordinate their programs with each other, with utility-operated programs and with other government and nonprofit programs operated within their service area. Local service providers are required to develop a local coordination plan annually to show what is being done to coordinate with weatherization agencies, fuel providers (utility and bulk fuels), and other local groups.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

пеанид	res
Cooling	No
Crisis	Yes

Are there exceptions? Yes

If yes, Describe.

For all of the items requiring policy references, please access the Wisconsin Home Energy Assistance Program (WHEAP) Operations Manual at: http://homeenergyplus.wi.gov/docview.asp?docid=25851&locid=25 and access the following sections:

- 1. Heating, please see sections 1.3.1, 7.1, 7.2, and 7.8.1
- 2. Crisis, please see sections 1.1.2, 4.2.1, 7.2, and 8.3.5.5
- 3. Exceptions, please see sections 7.1, 7.3, and 7.4

9.2 How do you notify the client of the amount of assistance paid?

At the time the LIHEAP payment is sent to the vendor, a payment notification is generated and sent to the client, indicating the amount of the payment and the vendor to whom the payment was made.

Households receiving weatherization and/or energy related repairs receive a written statement of work to be performed.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The Department of Administration requires vendors to register for participation in the heating assistance program and complete and sign a Vendor Agreement. To register, fuel suppliers agree that clients will be: treated equally with non-LIHEAP households, not be adversely affected, e.g., the eligible household will be charged in the supplier's normal billing process, the price charged will be the price normally charged non- LIHEAP eligible households, invoices will clearly indicate the amount and cost of home energy provided, and no discrimination will occur against eligible households with respect to terms, deferred payment plans, credit, conditions of sales or discounts offered other home energy customers.

Crisis assistance fuel payments are made to vendors registered for heating assistance. In addition to signing assurances guaranteeing that LIHEAP clients will be treated equally with non-LIHEAP households and will not be adversely affected, registered vendors are required to provide information on costs and procedures for emergency fuel delivery.

Energy related home repair and weatherization purchases made by LIHEAP weatherization providers follow appropriate state or federal procurement guidelines and applicable material standards.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The Department of Administration requires vendors to register for participation in the heating assistance program and to sign a completed Vendor Agreement. To register, fuel suppliers agree that clients will be: treated equally with non-LIHEAP households, not be adversely affected, e.g., the eligible household will be charged in the supplier's normal billing process, the price charged will be the price normally charged non-LIHEAP eligible households, invoices will clearly indicate the amount and cost of home energy provided, and no discrimination will occur against eligible households with respect to terms, deferred payment plans, credit, conditions of sales or discounts offered other home energy customers.

Crisis assistance fuel payments are made to vendors registered for heating assistance. In addition to signing assurances guaranteeing that LIHEAP clients will be treated equally with non-LIHEAP households and will not be adversely affected, registered vendors are required to provide information on costs and procedures for emergency fuel delivery

Energy related home repair and weatherization purchases made by LIHEAP weatherization providers follow appropriate state or federal procurement guidelines and applicable material standards.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

If so, describe the measures unregulated vendors may take.

Unregulated vendors are subject to the same program operation policies as regulated vendors. All vendors must register with the Wisconsin Home Energy Assistance

Program (WHEAP) by submitting a complete and signed vendor agreement before any payments will be made to the vendor. The vendor access to the Home Energy Plus system is limited and does not allow vendors to enter information into the system. Vendor payments are Home Energy Plus system generated and based on approved applications. All WHEAP vendors must sign the standard vendor agreement after which they are placed on a registered vendor list.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

The State maintains a modified accrual accounting system with security functions such as multiple approval levels, separation of duty and controlling budgets. LIHEAP funds are assigned accounting codes that track expenses by budget area and roll up for over-all grant review.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133? Yes

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

No Findings

- Secondary review of invoices and payments

Other program review mechanisms are in place. Describe:

- The State of Wisconsin, Department of Administration, Division of Energy Services (DES) conducts regular monitoring of its grantees via onsite Administrative Reviews as well as Desktop Monitoring.
- The DES Administrative Review process covers areas related to contract compliance, program operations, program integrity, staff, planning, protection of
 applicant's personal and identifiable information, quality assurance, reporting and claims and fraud.

Local Adminstering Agencies / District Offices:

- ✓ On site evaluation
- ✓ Annual program review
- ✓ Monitoring through central database
- ✓ Desk reviews
- Client File Testing / Sampling
- **✓** Other program review mechanisms are in place. Describe:

 - · All agencies are reviewed via Desktop Monitoring.
 - Ongoing Desktop Monitoring includes, but is not limited to, the following areas: production activity, outreach activity, accuracy of eligibility determination, client complaint trends, current system access and user security, and overall worker documentation. When discrepancies are discovered, the local agencies are contacted to review and, when warranted, correct the problems. Many of these inquiries are conducted before benefits are issued to applicants, and questioned cases are set aside from payment until the problem is corrected.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

Copy of monitoring schedule attached

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

DES maintains a regular cyclical schedule for all agencies. Agencies are put on a 2-3 year review schedule unless the results of an annual Desktop Monitoring review warrant an earlier onsite review.

Desk Reviews:

All agencies are reviewed annually through Desktop Monitoring.

10.8. How often is each local agency monitored?

DES contracts with 79 local county and tribal agencies to administer WHEAP. Agencies are scheduled on a 2-3 year cycle for Administrative Reviews and all 79 WHEAP agencies receive an annual desktop review.

10.9. What is the combined error rate for eligibility determinations? OPTIONAL

Based on our methodology of randomly pulling 100 case files where an error resulted in a household being wrongly determined as eligible or being wrongly determined as ineligible, a 2% ratio factor resulted.

10.10. What is the combined error rate for benefit determinations? OPTIONAL

Based on our methodology of randomly pulling 100 case files where an error resulted in a household receiving the wrong level of benefits, a 6% ratio factor resulted.

10.11. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues? None

10.12. How many local agencies are currently on corrective action plans for financial accounting or administrative issues? None
